SCHEDULE I

EXANTAS CAPITAL CORP. AND SUBSIDIARIES RECONCILIATION OF GAAP NET INCOME (LOSS) TO CORE EARNINGS

(unaudited)

XAN uses Core Earnings as a non-GAAP financial measure to evaluate its operating performance.

Core Earnings exclude the effects of certain transactions and GAAP adjustments that XAN believes are not indicative of its current CRE loan portfolio and other CRE-related investments and operations. Core Earnings exclude income (loss) from all non-core assets, such as commercial finance, middle market lending, residential mortgage lending, certain legacy CRE loans and other non-CRE assets designated as assets held for sale at the initial measurement date. (1)

Core Earnings, for reporting purposes, is defined as GAAP net income (loss) allocable to common shareholders, excluding (i) non-cash equity compensation expense, (ii) unrealized gains and losses, (iii) non-cash provisions for loan losses, (iv) non-cash impairments on securities, (v) non-cash amortization of discounts or premiums associated with borrowings, (vi) net income or loss from a limited partnership interest owned at the initial measurement date, (vii) net income or loss from non-core assets, (2)(3) (viii) real estate depreciation and amortization, (ix) foreign currency gains or losses and (x) income or loss from discontinued operations. Core Earnings may also be adjusted periodically to exclude certain one-time events pursuant to changes in GAAP and certain non-cash items.

Although pursuant to the Third Amended and Restated Management Agreement XAN calculates incentive compensation using Core Earnings excluding incentive fees payable to the Manager, beginning with the three months and year ended December 31, 2017 XAN includes incentive fees payable to the Manager in Core Earnings for reporting purposes.

Core Earnings does not represent net income or cash generated from operating activities and should not be considered as an alternative to GAAP net income or as a measure of liquidity under GAAP. XAN's methodology for calculating Core Earnings may differ from methodologies used by other companies to calculate similar supplemental performance measures, and, accordingly, its reported Core Earnings may not be comparable to similar performance measures used by other companies.

The following table provides a reconciliation from GAAP net income (loss) allocable to common shares to Core Earnings allocable to common shares for the periods presented (in thousands, except per share data):
